Subchapter B—Definitions and Coverage under the Employee Retirement Income Security Act of 1974

PART 2510—DEFINITIONS OF TERMS USED IN SUBCHAPTE R C, D, E, F, AND G OF THIS CHAPTER

3. The authority citation for part 2510 is revised to read as follows:

4. Revise §2510.3–21 to read as follows:

§2510.3–21 Definition of “Fiduciary.”

(a) Investment advice. For purposes of section 3(21)(A)(ii) of the Employee Retirement Income Security Act of 1974 (Act) and section 4975(e)(3)(B) of the Internal Revenue Code (Code), except as provided in paragraph (c) of this section, a person shall be deemed to be rendering investment advice with respect to moneys or other property of a plan or IRA described in paragraph (g)(6) of this section if—

(i) Such person provides to a plan, plan fiduciary, plan participant or beneficiary, IRA, or IRA owner the following types of advice for a fee or other compensation, direct or indirect: (I) A recommendation as to the advisability of acquiring, holding, disposing of, or exchanging, securities or other investment property, or a recommendation as to how securities or other investment property should be invested after the securities or other investment property are rolled over, transferred, or distributed from the plan or IRA;

(ii) A recommendation as to the management of securities or other investment property, including, among other things, recommendations on investment policies or strategies, portfolio composition, selection of other persons to provide investment advice or investment management services, selection of investment account arrangements (e.g., brokerage versus advisory); or recommendations with respect to rollovers, transfers, or distributions from a plan or IRA, including whether, in what amount, in what form, and to what destination such a rollover, transfer, or distribution should be made; and

(b)(1) For purposes of this section, “recommendation” means a communication that, based on its content, context, and presentation, would reasonably be viewed as a suggestion that the advice recipient engage in or refrain from taking a particular course of action. The determination of whether a “recommendation” has been made is an objective rather than subjective inquiry. In addition, the more individually tailored the communication is to a specific advice recipient or recipients about, for example, a security, investment property, or investment strategy, the more likely the communication will be viewed as a recommendation. Providing a selective list of securities to a particular advice recipient as appropriate for that investor would be a recommendation as to the advisability of acquiring securities even if no recommendation is made with respect to any one security.

Furthermore, a series of actions, directly or indirectly (e.g., through or together with any affiliate), that may not constitute a recommendation when viewed individually may amount to a recommendation when considered in the aggregate. It also makes no difference whether the communication was initiated by a person or a computer software program.

(ii) Platform providers. Marketing or making available to a plan fiduciary of a plan, without regard to the individualized needs of the plan, its participants, or beneficiaries a platform...
or similar mechanism from which a plan fiduciary may select or monitor investment alternatives, including qualified default investment alternatives, into which plan participants or beneficiaries may direct the investment of assets held in, or contributed to, their individual accounts, provided the plan fiduciary is independent of the person who markets or makes available the platform or similar mechanism, and the person discloses in writing to the plan fiduciary that the person is not undertaking to provide impartial investment advice or to give advice in a fiduciary capacity. A plan participant or beneficiary or relative of either shall not be considered a plan fiduciary for purposes of this paragraph.

(ii) Selection and monitoring assistance. In connection with the activities described in paragraph (b)(2)(i) of this section with respect to a plan,

(A) Identifying investment alternatives that meet objective criteria specified by the plan fiduciary (e.g., stated parameters concerning expense ratios, size of fund, type of asset, or credit quality), provided that the person identifying the investment alternatives discloses in writing whether the person has a financial interest in any of the identified investment alternatives, and if so the precise nature of such interest;

(B) In response to a request for information, request for proposal, or similar solicitation by or on behalf of the plan, identifying a limited or sample set of investment alternatives based on only the size of the employer or plan, the current investment alternatives designated under the plan, or both, provided that the response is in writing and discloses whether the person identifying the limited or sample set of investment alternatives has a financial interest in any of the alternatives, and if so the precise nature of such interest; or

(C) Providing objective financial data and comparisons with independent benchmarks to the plan fiduciary.

(iii) General Communications.

Furnishing or making available to a plan, plan fiduciary, plan participant or beneficiary, IRA, or IRA owner general communications that a reasonable person would not view as an investment recommendation, including general circulation newsletters, commentary in publicly broadcast talk shows, remarks and presentations in widely attended speeches and conferences, research or news reports prepared for general distribution, marketing materials, general market data, including data on market performance, market indices, or trading volumes, price quotes, performance reports, or prospectuses.

(iv) Investment Education. Furnishing or making available any of the following categories of investment-related information and materials described in paragraphs (b)(2)(iv)(A) through (D) of this section to a plan, plan fiduciary, plan participant or beneficiary, IRA, or IRA owner irrespective of who provides or makes available the information and materials (e.g., plan sponsor, fiduciary or service provider), the frequency with which the information and materials are provided, the form in which the information and materials are furnished or made available alone or in combination with other categories of information and materials, provided that the information and materials do not include (standing alone or in combination with other materials) recommendations with respect to specific investment products or specific plan or IRA alternatives, or recommendations with respect to investment or management of a particular security or securities or other investment property, except as noted in paragraphs (b)(2)(iv)(C)(4) and (b)(2)(iv)(D)(6) of this section.

(A) Plan information. Information and materials that, without reference to the appropriateness of any individual investment alternative or any individual benefit distribution option for the plan or IRA, or a particular plan participant or beneficiary or IRA owner, describe the terms or operation of the plan or IRA, inform a plan fiduciary, plan participant, beneficiary, or IRA owner about the benefits of plan or IRA participation, the benefits of increasing plan or IRA contributions, the impact of preretirement withdrawals on retirement income, retirement income needs, varying forms of distributions, including rollovers, annuitization and other forms of lifetime income payment options (e.g., immediate annuity, deferred annuity, or incremental purchase of deferred annuity), advantages, disadvantages and risks of different forms of distributions, or describe product features, investor rights and obligations, fee and expense information, applicable trading restrictions, investment objectives and philosophies, risk and return characteristics, historical return information, or related prospectuses of investment alternatives available under the plan or IRA.

(B) General financial, investment, and retirement information. Information and materials on financial, investment, and retirement matters that do not address specific investment products, specific plan or IRA investment alternatives or distribution options available to the plan or IRA or to plan participants, beneficiaries, and IRA owners, or specific investment alternatives or services offered outside the plan or IRA, and inform the plan fiduciary, plan participant or beneficiary, or IRA owner about:

(1) General financial and investment concepts, such as risk and return, diversification, dollar cost averaging, compounded return, and tax deferred investment;

(2) Historic differences in rates of return between different asset classes (e.g., equities, bonds, or cash) based on standard market indices;

(3) Effects of fees and expenses on rates of return;

(4) Effects of inflation;

(5) Estimating future retirement income needs;

(6) Determining investment time horizons;

(7) Assessing risk tolerance;

(8) Retirement-related risks (e.g., longevity risks, market/interest rates, inflation, health care and other expenses); and

(9) General methods and strategies for managing assets in retirement (e.g., systematic withdrawal payments, annuitization, guaranteed minimum withdrawal benefits), including those offered outside the plan or IRA.

(C) Asset allocation models.

Information and materials (e.g., pie charts, graphs, or case studies) that provide a plan fiduciary, plan participant or beneficiary, or IRA owner with models of asset allocation portfolios of hypothetical individuals with different time horizons (which may extend beyond an individual’s retirement date) and risk profiles, where—

(1) Such models are based on generally accepted investment theories that take into account the historic returns of different asset classes (e.g., equities, bonds, or cash) over defined periods of time;

(2) All material facts and assumptions on which such models are based (e.g., retirement ages, life expectancies, income levels, financial resources, replacement income ratios, inflation rates, and rates of return) accompany the models;

(3) The asset allocation models are accompanied by a statement indicating that, in applying particular asset allocation models to their individual
situations, plan participants, beneficiaries, or IRA owners should consider their other assets, income, and investments (e.g., equity in a home, Social Security benefits, individual retirement plan investments, savings accounts, and interests in other qualified and non-qualified plans) in addition to their interests in the plan or IRA, to the extent those items are not taken into account in the model or estimate; and

(4) The models do not include or identify any specific investment product or investment alternative available under the plan or IRA, except that solely with respect to a plan, asset allocation models may identify a specific investment alternative available under the plan if it is a designated investment alternative within the meaning of 29 CFR 2550.404a–5(h)(4) under the plan subject to oversight by a plan fiduciary independent from the person who developed or markets the investment alternative and the model:

(i) Identifies all the other designated investment alternatives available under the plan that have similar risk and return characteristics, if any; and

(ii) is accompanied by a statement indicating that those other designated investment alternatives have similar risk and return characteristics and identifying where information on those investment alternatives may be obtained, including information described in paragraph (b)(2)(iv)(A) of this section and, if applicable, paragraph (d) of 29 CFR 2550.404a–5.

(D) Interactive investment materials. Questionnaires, worksheets, software, and similar materials that provide a plan fiduciary, plan participant or beneficiary, or IRA owner the means to:

(i) Estimate future retirement income needs and assess the impact of different asset allocations on retirement income; evaluate distribution options, products, or vehicles by providing information under paragraphs (b)(2)(iv)(A) and (B) of this section; or estimate a retirement income stream that could be generated by an actual or hypothetical account balance, where:

(1) Such materials are based on generally accepted investment theories that take into account the historic returns of different asset classes (e.g., equities, bonds, or cash) over defined periods of time;

(2) There is an objective correlation between the asset allocations generated by the materials and the information and data supplied by the plan participant, beneficiary or IRA owner; and

(3) There is an objective correlation between the income stream generated by the materials and the information and data supplied by the plan participant, beneficiary, or IRA owner;

(4) All material facts and assumptions (e.g., retirement ages, life expectancies, income levels, financial resources, replacement income ratios, inflation rates, rates of return and other features, and rates specific to income annuities or systematic withdrawal plans) that may affect a plan participant’s, beneficiary’s, or IRA owner’s assessment of the different asset allocations or different income streams accompany the materials or are specified by the plan participant, beneficiary, or IRA owner;

(5) The materials either take into account other assets, income and investments (e.g., equity in a home, Social Security benefits, individual retirement plan investments, savings accounts, and interests in other qualified and non-qualified plans) or are accompanied by a statement indicating that, in applying particular asset allocations to their individual situations, or in assessing the adequacy of an estimated income stream, plan participants, beneficiaries, or IRA owners should consider their other assets, income, and investments in addition to their interests in the plan or IRA; and

(6) The materials do not include or identify any specific investment alternative or distribution option available under the plan or IRA, unless such alternative or option is specified by the plan participant, beneficiary, or IRA owner, or it is a designated investment alternative within the meaning of 29 CFR 2550.404a–5(h)(4) under a plan subject to oversight by a plan fiduciary independent from the person who developed or markets the investment alternative and the materials:

(i) Identify all the other designated investment alternatives available under the plan that have similar risk and return characteristics and identify any specific investment alternative or distribution option available under the plan or IRA, unless such alternative or option is specified by the plan participant, beneficiary, or IRA owner; or it is a designated investment alternative within the meaning of 29 CFR 2550.404a–5(h)(4) under a plan subject to oversight by a plan fiduciary independent from the person who developed or markets the investment alternative and the materials:

(ii) Are accompanied by a statement indicating that those other designated investment alternatives have similar risk and return characteristics and identifying where information on those investment alternatives may be obtained; including information described in paragraph (b)(2)(iv)(A) of this section and, if applicable, paragraph (d) of 29 CFR 2550.404a–5;

(c) Except for persons who represent or acknowledge that they are acting as a fiduciary within the meaning of the Act or the Code, a person shall not be deemed to be a fiduciary within the meaning of section 3(21)(A)(ii) of the Act or section 4975(e)(3)(B) of the Code solely because of the activities set forth in paragraphs (c)(1), (2), and (3) of this section.

(1) Transactions with independent fiduciaries with financial expertise—

The provision of any advice by a person (including the provision of asset allocation models or other financial analysis tools) to a fiduciary of the plan or IRA (including a fiduciary to an investment contract, product, or entity that holds plan assets as determined pursuant to sections 3(42) and 401 of the Act and 29 CFR 2510.3–101) who is independent of the person providing the advice with respect to an arm’s length sale, purchase, loan, exchange, or other transaction related to the investment of securities or other investment property, if, prior to entering into the transaction the person providing the advice satisfies the requirements of this paragraph (c)(1).

(i) The person knows or reasonably believes that the independent fiduciary of the plan or IRA is:

(D) A broker-dealer registered under the Securities Exchange Act of 1934; or

(v) The person does not receive a fee or other compensation directly from the plan, plan fiduciary, plan participant or beneficiary, IRA, or IRA owner for the provision of investment advice (as opposed to other services) in connection with the transaction.

(iv) In advance of providing any recommendations with respect to the transaction, or series of transactions, the person obtains a written representation from the independent fiduciary that the independent fiduciary understands that the person is not undertaking to provide impartial investment advice, or to give advice in a fiduciary capacity, in connection with the transaction and that the independent fiduciary is exercising independent judgment in evaluating the recommendation.

4975(e)(1).

Best Interest Contract Exemption

AGENCY: Employee Benefits Security Administration (EBSA), U.S. Department of Labor.

ACTION: Adoption of Class Exemption.

SUMMARY: This document contains an exemption from certain prohibited transactions provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code (the Code). The provisions at issue generally prohibit fiduciaries with respect to employee benefit plans and individual retirement accounts (IRAs) from engaging in self-dealing and receiving compensation from third parties in connection with transactions involving the plans and IRAs. The exemption allows entities such as registered investment advisers, broker-dealers and insurance companies, and their agents and representatives, that are ERISA or Code fiduciaries by reason of the provision of investment advice, to receive compensation that may otherwise give rise to prohibited transactions as a result of their advice to plan participants and beneficiaries, IRA owners and certain plan fiduciaries (including small plan sponsors). The exemption is subject to protective conditions to safeguard the interests of the plans, participants and beneficiaries and IRA owners. The exemption affects participants and beneficiaries of plans, IRA owners and fiduciaries with respect to such plans and IRAs.

DATES: Issuance date: This exemption is issued June 7, 2016.

Applicability date: This exemption is applicable to transactions occurring on or after April 10, 2017. See Section K of this preamble, Applicability Date and Transition Rules, for further information.

SUPPLEMENTARY INFORMATION:

Executive Summary

Purpose of This Regulatory Action

The Department grants this exemption in connection with its publication, elsewhere in this issue of the Federal Register, of a final regulation defining who is a “fiduciary” of an employee benefit plan under ERISA as a result of giving investment advice to a plan or its participants or beneficiaries (Regulation). The Regulation also applies to the definition of a “fiduciary” of a plan (including an IRA) under the Code. The Regulation amends a prior regulation, dating to 1975, specifying when a person is a “fiduciary” under ERISA and the Code by reason of the provision of investment advice for a fee or other compensation regarding such matters as, among other things, investment policies or strategy, overall portfolio composition, or diversification of plan investments.

(2) Affiliate and control. (i) For purposes of paragraph (j), the term “control” means the power to exercise a controlling influence over the management or policies of a person other than an individual.

(3) Expiration date. This paragraph (j) expires on April 10, 2017.

Signed at Washington, DC, this 1st day of April, 2016.
Phyllis C. Borzi,
Assistant Secretary, Employee Benefits Security Administration, Department of Labor.
